

Campaigns Director

## Description

### About Greenpeace Andino

Greenpeace exists because this fragile earth deserves a voice. It needs solutions. It needs change. It needs action. Greenpeace was founded in Vancouver in 1971, when a small boat of volunteers and journalists sailed into Amchitka, an area north of Alaska where the US Government was conducting underground nuclear tests. This tradition of 'bearing witness' in a non-violent manner continues as an important part of all campaign work. Greenpeace today operates in more than 40 countries with headquarters in Amsterdam.
